PROFESSIONAL SUMMARY

Computer Science Engineering graduate (B.Tech, 2026) with a strong foundation in software development, Python full-stack development, and Artificial Intelligence/Machine Learning. Hands-on experience in Python, Django, Flask, REST API development, SQL, OpenCV, and LLM API integration. Successfully developed and deployed four end-to-end AI/ML projects, demonstrating practical skills in building real-world applications and integrating intelligent solutions. Completed two industry internships specializing in AI/ML and Full Stack Python development. Eager to leverage technical expertise, problem-solving abilities, and a passion for continuous learning to contribute to innovative software engineering projects.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL
Web Development: Django, Flask, HTML, CSS, JavaScript, REST API Integration
AI / ML: Machine Learning Fundamentals, Computer Vision, OpenCV, Speech Recognition, LLM API Integration (GPT, Gemini, Claude, Grok)
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Exception Handling
Tools and Platforms: Git, GitHub, Google Colab, IBM Cloud, DevOps Fundamentals
Soft Skills: Communication, Teamwork, Leadership, Time Management, Quick Learner

EXPERIENCE

Full Stack Python Trainee and Intern | Verso Technologies (VTEC) *Jun 2026 - Sep 2026*

- Completed a four-month industry-led training and internship covering Advanced Python, Django, Flask, HTML, CSS and JavaScript.
- Built real-time full-stack web projects applying backend, frontend and REST API concepts.

Python with AI & ML Intern | Next Chapter (in collaboration with Wipro) *May 2025 - Jul 2025*

- Developed AI/ML applications under industry mentorship, applying core machine learning concepts to real-world problem statements.
- Collaborated with a project team following structured development and code review processes.

PROJECTS

CodeReviewer.AI | *Python, CLI, Multi-LLM Integration, Git*

- Built a CLI tool for automated code review that integrates GPT, Gemini, Claude and Grok APIs to detect bugs, security issues and performance problems.
- Added Git integration and multi-language support to review code across repositories.

Driver Drowsiness Detection System | *Python, OpenCV, Computer Vision*

- Developed a real-time system that monitors eye-closure and head-position patterns through a webcam to detect driver fatigue and trigger an audio alert.
- Applied facial landmark detection to identify drowsiness cues and reduce the risk of fatigue-related accidents.

MockTestAI - AI-Powered Mock Test Generator | *Python, AI/ML*

- Built an AI-driven online mock test platform with automated test evaluation and performance analytics.
- Delivered instant, personalized feedback to support self-paced exam preparation.

Live Weather Notifier Using AI | *Python, REST API, Speech Recognition*

- Developed an AI-powered weather notification tool integrating the OpenWeatherMap REST API with speech recognition for voice-based queries.
- Generated outfit recommendations based on real-time weather conditions.

EDUCATION

B.Tech, CSE | AAR Mahaveer Engineering College, Hyderabad 2022 - 2026 | CGPA: 7.83/10
Intermediate (Class XII) | T.S. Model School and Govt. Junior College, Khillagapur 2020 - 2021 | 63.8%
SSC (Class X) | TSWREIS Girls School, Marikal, Narayanpet 2019 - 2020 | GPA: 9.0/10

CERTIFICATIONS AND ACHIEVEMENTS

- Full Stack Python (Training with Internship) - Verso Technologies (Jun - Sep 2026)
- Python with AI & ML Internship Certificate - Next Chapter in collaboration with Wipro (May - Jul 2025)
- Python with AI & ML Corporate Training Certificate - Next Chapter in collaboration with Skill India (May - Jul 2025)
- Certificate of Excellence, Student Ambassador Program - IIT Guwahati (Apr 2025)
- AI for Beginners - HP LIFE, HP Foundation (Apr 2025)
- DevOps Fundamentals - The Digital Adda (Feb 2025)
- Python Programming Bootcamp - AAR Mahaveer Engineering College Technical Club (Jun 2024)
